## **Bethel African Methodist Episcopal Church Renovation**

Morristown, NJ

### **PROJECT NAME**

Bethel AME Church Renovation Project

### **PROJECT OWNER/ CLIENT**

Bethel AME Church  
59 Spring Street  
Morristown, NJ 07960

### **CONTRACT AMOUNT**

\$30,500

### **CONSTRUCTION COST**

\$375,000

### **PROJECT SERVICES**

Architectural  
Electrical and Structural  
Plumbing and Geotechnical  
Construction Administration  
Planning Board Testimony

### **PROJECT DESCRIPTION**

The project involves approximately 1,800 square feet of building renovation.

NPAD's responsibility was to convert the existing church to become barrier-free, which is consistent with American with Disabilities Act (ADA). The scope of services included the design and installation of a 2100 lb capacity elevator and building interior and exterior accessibility ramps. Newly renovated male and female restrooms included a female lounge with custom furniture, stainless steel toilet compartments, corian countertops and attachment free floor for cleaning. The project required the inclusion of a fire protection system that connected the elevator to the building alarm system. NPAD assisted in the securing of \$30,000 in grant funding for building renovation construction cost.
